Fire Response – 100 area

November 24, 2026 – Iqaluit, Nunavut

The City of Iqaluit would like to advise residents that the Iqaluit Fire Department is currently responding to an active fire in the 100 area.

Residents are asked to avoid the area where possible to ensure the safety of the public and allow emergency crews to carry out their response efforts without obstruction.

City water trucks are also in the area providing water to support firefighting operations. As a result, residents on trucked water services may experience delays in water delivery.

The City of Iqaluit thanks residents for their patience, understanding and cooperation as emergency crews respond to the situation.
