Swimming Lesson Lottery – Selection Complete

October 9, 2025 - Iqaluit, Nunavut

The lottery process for the fall session of swimming lessons has now closed.

This session received over 300 entries. The lottery system was used to support fair and consistent access to programs for all families, regardless of when or how they were able to register.

Participants who were selected in the lottery have been notified by email, sent to the address used during registration.

Participants who were not selected will remain on a waitlist. Waitlisted names were also drawn during the lottery and may be offered a space if a withdrawal occurs in their selected level.
