ADDENDUM

Project:	Trigram Reheat Station Relocation (2025-RFT-093)	Addendum No.: 3
		No. of Pages: 1
		Date: May 9, 2025
		Doc. No. P7201-950302569-978(1.0)

The following change(s) in the Tender Documents are effective immediately.
This Addendum forms part of the Contract Documents.

ITEM	DESCRIPTION	ACTION

Revisions

R3.1

Proponents are reminded that to meet the full requirements of the RFT, the proposal shall include, but not be limited to, the trench box requirements as per Note 22 of drawing C001 & Technical Specifications Section 31 23 33 01 (further clarified in Addendum 1, response 1.3)

The City may also now consider, in addition to a conforming bid, a non-conforming bid that includes other safe methods of trenching besides the use of trench boxes, provided the trenching methods adhere to all technical, design and safety standards outlined in the 2025-RFT-093 & minimize the damage to existing asphalt as per the design drawings. The non-conforming bids must clearly be presented in a letter attached to the proposal for the City review at its own discretion. The letter should include a full description of the alternative option proposed, including any financial benefit. Proponents must submit both a conforming bid (with the use of trench boxes) and a non-conforming bid (alternative trenching methods) if they desire to propose an alternative. The conforming bid will be the primary basis of evaluation.

R3.2

As per the cost submission form line items under section 3.0 Installation of Recirulation Line, all materials and activities associated with granular supply, placement & compaction as specified in the technical specifications shall be included under the respective line items. The designated provisional line items 5.2, 5.3, and 5.4 are only applicable in situations where the native soil is deemed contaminated and unsuitable for the use of backfill as per the embedment zone.

R3.3

The Closing Date for the RFT shall remain on **May 14, 2025 – 3:00 PM EST** as per Addendum 01, response 1.1.
