WHAT IS DEVELOPMENT PERMIT APPLICATION DP 20-062?

On the South West side of the City's Core Area, the Uquutaq Society has submitted a development application DP 20-062 to increase the existing capacity of Building 778 from 20 to 42 beds and execute interior renovations. This Low Barrier Shelter will provide an overnight respite program without the standard zero-tolerance policy for intoxication, operating with three (3) staff members, serving both vulnerable men and women. This change will reduce existing barriers for individuals to access services.

Building 778 on Fred Coman Street

AM I AFFECTED?

Properties within a 250m radius of Building 778 on Fred Coman Street will be able to register with the Planning & Development Department to participate in the Public Hearing regarding DP 20-062. Please see the reverse side for the area map.
