# Public Service Announcement

**Water Shut Down and Precautionary Boil Water Advisory – 89, 99, 100's, 200's, 300, 301, 303, 304, 305, 306, 307, 308, 309, 310, 315, 316, 317, 318, 320, 337, 339, 341, and 343**

**November 18, 2025 – Iqaluit, Nunavut**

---

Please be advised of a water shut down on **Thursday, November 20, from approximately 9:00 AM to 12:00 PM** to allow for necessary water infrastructure work.

Location of water interruption: **89, 99, 100's, 200's, 300, 301, 303, 304, 305, 306, 307, 308, 309, 310, 315, 316, 317, 318, 320, 337, 339, 341, and 343.**

When water pressure drops, the Chief Public Health Officer of Nunavut automatically issues a precautionary boil water advisory. If this water interruption affects your residence, you are under a precautionary boil water advisory.

When the Office of the Chief Public Health Officer informs the City of Iqaluit that the advisory is lifted, we will inform residents.

During a precautionary boil water advisory, the City recommends that all water for consumption is brought to a rolling boil for a **minimum** of one full minute.

It is recommended that all water be boiled for the following uses:

- drinking;
- preparing infant formulas;
- preparing juices and ice cubes;
- washing fruits and vegetables;
- cooking; or
- brushing of teeth.

Water can be boiled either in a pot or kettle on a stove or an electric kettle without an automatic shut-off.
