Inclement Weather – Service Disruption for Water, Sewer and Garbage Collection

November 17, 2026 – Iqaluit, Nunavut

The City of Iqaluit would like to advise residents that due to inclement weather conditions, garbage collection, sewer pump-out and water delivery services have been suspended for the remainder of the day. The City landfill has also closed early due to weather conditions.

Residents on trucked services are asked to reduce their water consumption and wastewater output until services resume.

Regular service delivery is anticipated to resume tomorrow morning, weather conditions permitting.

There are no other impacts to City services at this time.

The City of Iqaluit apologizes for any inconvenience and thanks residents for their understanding.
